Rehabilitative Care as well as Extended Stay Residential and Ventilator-Dependent Skilled Nursing Care in a clean, safe and caring environment.

Tel: 315-361-2018 (Admissions Info)

Tel: 315-361-2016 (General Info)

Rehabilitation Services

Oneida Healthcare Center Extended Care Facility prides itself on its excellent therapy services. Knowledgeable and compassionate staff provide an array of therapeutic programs. Getting residents back to their highest functional ability and returning home is their ultimate goal.

Occupational Therapy (above) is skilled treatment that provides training in daily living skills to promote maximum independence. Physical Therapy (below) focuses on strengthening and gait training for safe mobility.

Life in the Facility

Our full-time Activity Department keeps residents involved within the facility, as well as outside in the community. Many special activities are held on a regular basis at the Extended Care Facility. The facility encourages residents to share treasured holidays with family members by providing traditional holiday meals to the residents and their invited guests in our tastefully constructed Station Break Cafe. The café is open year round for resident and family dining.

Special parties in May and June provide our ladies and men the opportunity to invite a guest to join them for a special meal as the Facility hosts its annual Ladies' Luncheon and Men's Barbeque.

Pictured below, our men and their guests enjoy a special picnic feast with guests from the International Boxing Hall Of Fame.

Ventilator-Dependent Unit

Our facility accommodates residents in need of long or short-term ventilator support. Specially trained physician, nursing, and respiratory staff work together to promote the highest level of functioning for each resident. Ventilator-dependent residents participate in an array of activities including religious, social, in-house beauty/barber shop, pet therapy, and more. Easy and immediate access to acute care (hospital) services are available via an internal hallway connecting the two buildings.

Resident Rooms

The ECF has a total of 160 beds on four residential floors. Each floor houses eight private rooms and 16 semi-private rooms; along with common areas such as library/television room, dining lounge, and small family lounge. Pictured right is a semi-private room on the facility's second floor.
